

10.4" NEMA 4 (IP65) Fully Enclosed LCD Monitor

Compact

The VT104V fully sealed NEMA 4 monitor is a rugged, industrial display designed to connect remote PCs to the production floor. With its moderate weight and very small footprint, the VT104V series is ideal for applications where space is limited.

Rugged

The VT104V monitor is fully enclosed in a sealed, black powder coated, NEMA 4 chassis. The system has no external vents, so nothing can get under its skin, including weather, dust, dirt, moisture, oil, chemicals or other harsh contaminants.

With its lightweight yet rugged construction, and either precabled or bulkhead connectors, the VT104V is easily mounted on walls, stands, arms or other industrial equipment. With optional brackets, it conforms to VESA flat panel mounting standards.
